About Me

My name is P.E. Butler III and I was born in Ohio, but live in Denver, Colorado.

I received a bootleg version of Photoshop in high school and the tinkering began.

My thoughts on design & development? Every element, every bit of code, should serve a justifiable purpose.

In My Free Time

- I go to the park with my daughter and better half
- Pretend to be a chef.
- Thoroughly enjoy watching the Barclay's Premier League
