P.E. BUTLER III

PROFILE

Front End Developer / Designer in Denver, Colorado. I have been working full time as a developer/designer for the last 3 years. I thoroughly enjoy building performant products and the endless

EXPERIENCE

FRONT END DEVELOPER / DESIGNER, BRIGHT STORES, INC, DENVER, COLORADO FEB 2016 - PRESENT

I currently work on the design team at Bright Stores working with clients to design/develop e-commerce solutions in the promotional products industry. Additionally, I am on the 3 person team building a Ruby on Rails application for facilitating user feedback.

DIRECTOR, DESIGN & DEVELOPMENT, CAP MANAGEMENT, DENVER, COLORADO DEC. 2012 - FEB. 2016

Built and designed 30+ websites for CAP Management and all of their clients. Utilizing SCSS, gulp, Foundation, JavaScript, etc.

CURRENTLY WORKING WITH:

HTML(5), CSS(3), SCSS, JavaScript(vanilla), jQuery, Liquid Templates, VIM, Tmux, Jekyll, Ruby, Sinatra, Rails, React, Webpack, gulp, git (github/gitlab), markdown, Foundation (5,6)

WOULD LIKE TO WORK WITH:

Node JS, React, JavaScript, and any other technologies that are pushing the web forward while utilizing the capabilities of the languages that build it.

CURRENT STUDIES:

- JavaScript
- React
- Node Js
- Webpack
- Sinatra

DESIRED ROLE:

I am looking for a Front End Developer position at an organization that truly cares about fostering growth in their developers. A position of which continued learning is a must and settling isn't an option.

IN MY FREE TIME:

- Take my daughter to the park.
- I work on side projects and attend developer meet ups.
- I also enjoy mentoring those of whom are trying to learn to code.
